25-MINUTES

For all you know, five minutes ago, a Soviet SS-11 intercontinental ballistic missile was launched from its camouflaged silo near the Trans-Siberian railroad.

Destination: Portland, Oregon, USA.

NORAD and SAC headquarters have been destroyed by saboteurs.

Washinton, D.C. has been destroyed by a submarine missile fired on a depressed trajectory.

The U.S. government has been eliminated.

You will receive no warning of the missile arcing towards Portland.

Five megatons.

In twenty-five minutes, Reed College will become a hellish inferno.

You could waste the last twenty-five minutes of your life, or you could spend them playing **Empire**.

Sure,
It's fine now.

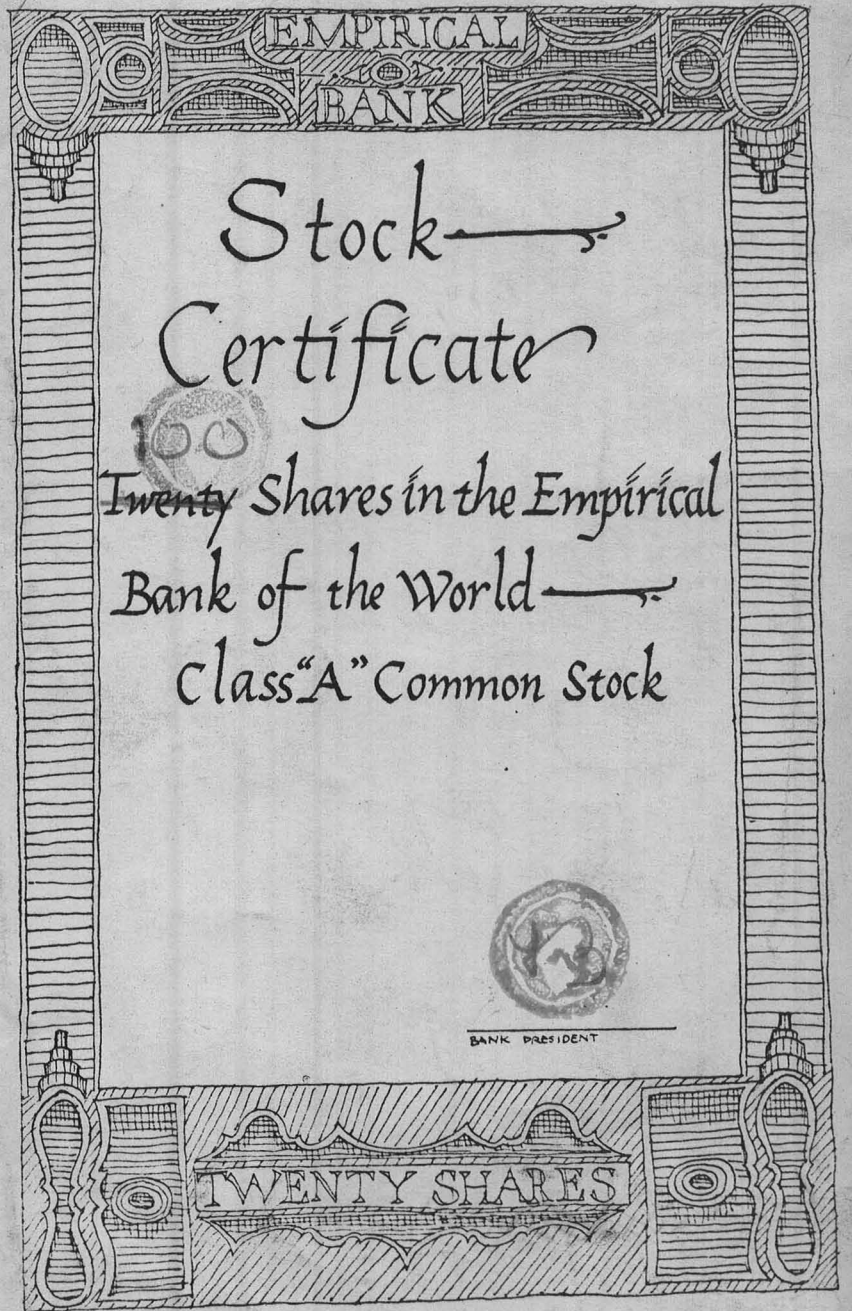

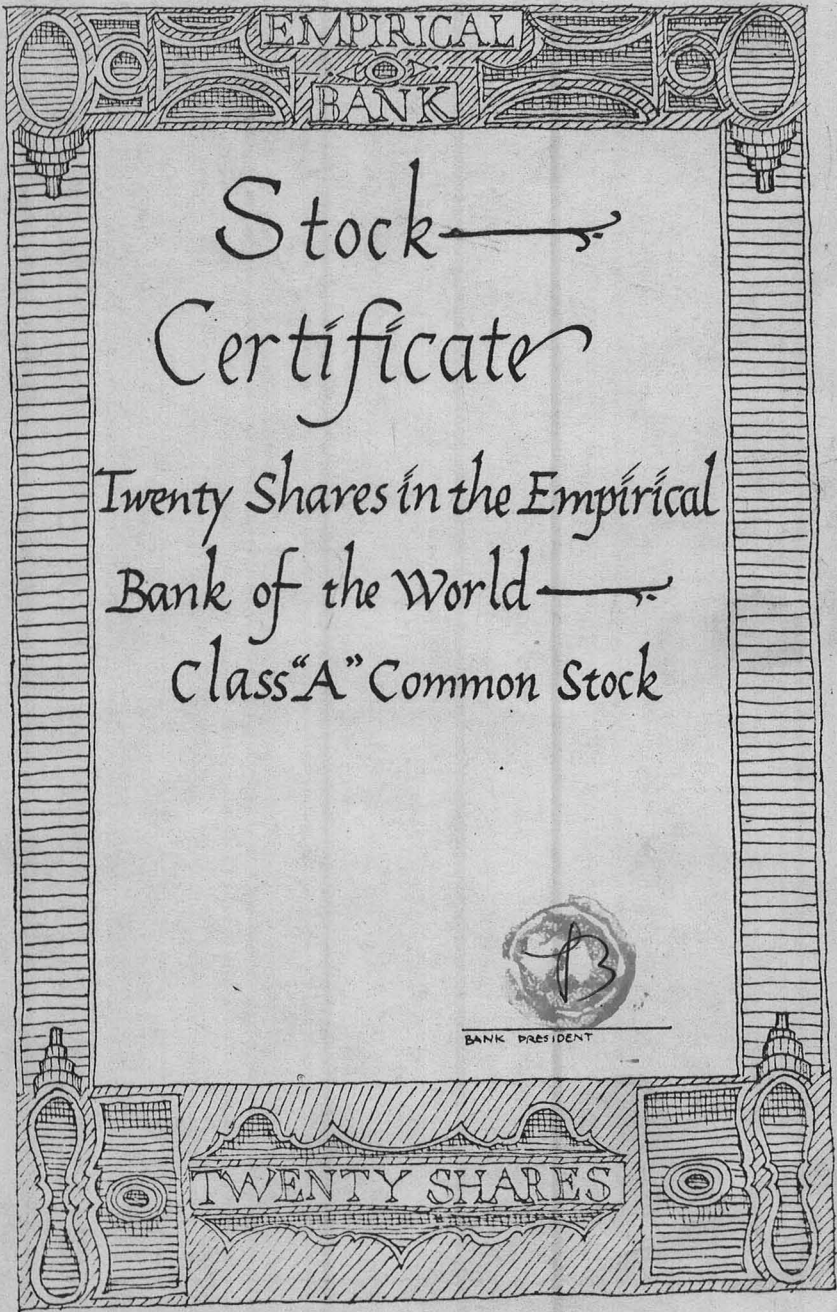

The sun is shining. You've just met many interesting people. **But**, come the first of November, when it's been raining for 7-weeks and, you've been trapped in your dorm with all of those interesting people. You may be glad to have somewhere where you can go and plot the total humiliating destruction of another human being.

We haven't survived 26-years on good intentions alone.

here.

The choice is yours!

No Girls Allowed.

This statement has never appeared on an Empire Game flyer, but it might as well have. I will personally bet any female on campus that she cannot last through one year playing Empire and two games of Tac-5. \$50.

Come on, I dare you. 

Empire starts Sunday at 1:00 PM
in the Foster-Scholzz social room.
